

ASHLAND AFTER SCHOOL PROGRAM

The After-School Program will open on September 8th. The program will run with limited numbers to allow for social distancing. There will be a few changes that need to happen for the safety of children at the school as well as the After-School Program.

- If your child signs up for the After-School Program, it will need to be for the entire week. To have areas set up safely for kids we need to know an exact number daily. Also, this will alleviate some of the issues with calls coming into the school at the end of the day.
- Forms can be found on the town website.
<http://ashlandnh.org/parks-recreation/pr-programs/>
You can either email the forms to recreation@ashland.nh.gov or drop them in the mail slot at the Town Office.
- Your child's form must be in prior to your child starting the program. I will give you a confirmation call before the first day of the program so that you know you are all set. Please do not send paperwork with your child to school. They will not be allowed to come until you have a confirmation.
- We will be following the same protocol that the school is as much as possible. There will be assigned seats when inside. Masks will be worn by staff and children while in the building and not in seats.
- Temperatures will be taken before kids leave the school. Staff temperatures will be taken daily.
- Hand sanitizer will be used before entering the Booster Club. There will be hand washing breaks.
- All equipment and surfaces will be sprayed down each day.
