

Minutes
Ashland Water and Sewer Department
October 5, 2018

An emergency meeting of the Ashland Water and Sewer Commission was called to order at 11:00 a.m. Mr. Cilley, Mr. Badger, and Mr. Toth present.

The purpose of the meeting was to vote approve the General Contractor for the Septage Receiving Station. The urgency of the meeting had to do with expediting the approval process to achieve the earliest start date possible.

The commissioners voted 2 to 1 to approve Kingsbury as the General Contractor. All of the commissioners expressed reservations about Kingsbury's administration and record of using change orders.

The commissioners also approved having Woodard & Curran negotiate with Smith & Loveless on the exceptions to the Grit Chamber conflict. We prefer to meet with them in person but will accept a video conference. We feel that the company must make some concessions if they want to sell the equipment especially concerning the sales taxes.

The meeting was adjourned at 11:30 a.m.
