July 6, 2021

To Our Electric Customers,

After we completed and mailed this month's invoices, it came to our attention that there was a malfunction with the collator. Unfortunately, due to the humidity and a failed part, it was taking more than one invoice at a time.

As we are finding out who has not received their bill, we are re-sending them out on that day of notification. We apologize for this inconvenience, and as the problem has been address and fixed, we are confident that it will not reoccur next month.

Thank you,

Anne Sullivan
