

## BUDGET COMMITTEE MINUTES

October 7, 2021 5PM Ashland Water & Sewer Building

Chairman Stewart called the meeting to order at 5:00 pm with a roll call: LN here, EB here, DU here, SC here, DR here, JS here, KB absent with notice.

The chairman stated that she received a letter asking the committee to put voices against violence in the budget, everyone agreed it should be a petitioned warrant article.

Winter St. bridge is going to need repair.

The committee discussed the fact that we do not have the 2022 budget from the selectmen yet. The chairman said she had talked to some of the board members and they are working on the budget and will be done as soon as possible.

As soon as the budget is completed by the selectmen they will present it to the budget committee and after that the committee will meet with the department heads.

The committee went over the 2021 budget and made comment and corrections that they felt were wrong.

The chairman asked each member what days are not good for them to have a meeting. She will try and schedule them according to the committee's input of days that would not work.

The chairman adjourned the meeting at 6:25 pm.

Respectfully Submitted,

Jeanette Stewart, Chairman
