INSPECTION SCHEDULE

For Building Inspections: Tel: 603.968.4432, ext. 562 • bldg@ashland.nh.gov

For Final Mechanical/Fire Safety Inspections: Tel: 603-968-7772.

All inspections must be performed before continuing to the next stage of construction. Unless otherwise noted, contact the Building Inspector to schedule the inspection. The following is a list of the standard inspections that shall be performed and when they are to be done:

CONCRETE INSPECTIONS

PIER FOUNDATIONS/DECKS

- DEPTH VERIFICATION (48") (After hole is dug and form is placed, but before pouring concrete)
- POURED PIERS (After concrete is poured. Photographs submitted by email are adequate.)

FULL FOUNDATIONS

- FOOTINGS & REBAR (After placement of forms and before pouring concrete.)
- POURED FOOTINGS (After concrete is poured. Photographs submitted by email are adequate.)
- SLAB INSPECTION (Once all under-slab utilities are in place and before pouring concrete.)
- FINAL FOUNDATIONS (Before backfilled)

ROUGH INSPECTIONS

- PLUMBING
- ELECTRICAL
- MECHANICAL
- FUEL/GAS PIPING
- FRAMING (After other Rough Inspections have been completed.)
- INSULATION (After Framing inspection and before wall board has been installed.)

FINAL INSPECTIONS

- PLUMBING
- ELECTRICAL
- MECHANICAL (Contact Ashland Fire Dept.)
- HEALTH INSPECTION (If required)
- LIFE SAFETY (Contact Ashland Fire Dept.)
- BUILDING INSPECTION (Once all other inspections have been completed but may be done at the same time as the Life Safety Inspection.)

ISSUANCE OF "CERTIFICATE OF OCCUPANCY" (IF WARRANTED)
