REPORT OF THE BOARD OF EDUCATION

TO THE SUPERINTENDING SCHOOL COMMITTEE.

In conformity with the law, and for your information, the undersigned submit their Annual Report of the Board of Education.

The Summer Term consisted of 9 weeks.

The Fall “ “ 11 “

The Winter “ “ 10 “

On the assembling of the schools at the opening of the Summer Term, the Primary Department was found to be so large that the Board felt obliged to start the 2nd Primary.

The SUMMER TERM was taught as follows :

Grammar School, by Miss Lydia A. Webster.

Intermediate, by Miss Fannie M. Keyes.

1st Primary, by Miss Maria F. Ladd.

2nd Primary, by Miss M. Alice Smith.

FALL TERM.—Grammar School, by Miss Fannie M. Keyes.

Intermediate, by Miss Emma J. Fellows.

1st Primary, by Miss Maria F. Ladd.

2nd Primary, by Miss M. Alice Smith.

WINTER TERM.—Grammar School, by Miss Fannie M. Keyes.

Intermediate, by Miss Emma J. Fellows.

Primary, by Miss Maria F. Ladd.

At the commencement of the Winter Term, the Primary scholars were reduced in numbers, so that the 2nd Primary was discontinued.

The Scarlet Fever has somewhat disturbed the school during the entire year, but aside from that, the schools have been a success. The Teachers have manifested a strong interest in their several charges, which the examinations have proved.

We think our schools will compare favorably with any similar schools in the State.

The discipline of the schools has been very good ; and the Board have seldom been called upon to consider cases of infringement of the rules.

They are also pleased to notice an increased interest manifested by the public, in the large number of visitors at the close of the terms.

HONOR ROLL.—GRAMMAR SCHOOL.

FIRST TERM.

Wilfred Brown,	Delle Dearborn,
Ora Brown,	Martha Smith,
Wilber Bailey,	Grace Bailey,
Clarence Smith,	Alliean Clough,
Alice Ames,	Ellen Webster.

SECOND TERM.

J. F. KEYES, *President.*

MARTHA D. SHEPARD, *Secretary.*

For the Board.

REPORT OF THE Superintendent of Schools.

TEXT-BOOKS.

The Board of Education in Dist. No. 1 have seen fit to change the Franklin Readers for the Appleton series.

The change was made this last winter, and as our schools in the other Districts, with one exception, were not in session, we were unable to make the change at the same time. Arrangements, however, can be made to have the change completed when the schools open in the spring.

In all the Districts, except one, we have had two or more terms of school. The exception is in No. 5, a Union District, where they have had only eight weeks of school for the year. I would recommend that they appropriate a sum of money at their school meeting sufficient to prolong their school to twenty weeks.

Our schools have made good advancement the past year. Harmony has prevailed, and a general co-operation of teachers, parents, and scholars.

From observations, made during the past two years, I am satisfied that Normal School graduates make the best teachers; and I hope Prudential Committees will employ them when they can.

ATTENDANCE.

Under this subject I can do no better than quote from the report of Col. Francis W. Parker, Supt. of Schools, of Quincy, Mass., who says:

"Normal teaching and good treatment have nearly, if not quite, settled the question of attendance. As a rule, children attend school when they possibly can. There is noticeably a growing love

for school and all that pertains to it. Means of stimulating attendance, behaviour and study, outside of real teaching, are becoming less and less necessary.

The results seem to prove that the attractive influence of real teaching will render punishment and compulsion in attendance unnecessary. There is, I believe, in this direction a far higher result than this—to be seen by those who follow the children from step to step, and grade to grade. It is the steady growth in good character of the boys and girls in our public schools. The moral effect of filling children's heads full of good thoughts, and their hands full of pleasant, absorbing work is the formation of good habits of thought and action."

As to the employment of the same teachers, for a long time, he says :

"The continuous, steady work, so indispensable in obtaining good results, has been often sadly interrupted by the

LOSS OF GOOD TEACHERS.

No matter how competent the successors may be, they cannot take up another's work without the loss of much valuable time. Several schools have suffered severely by the loss of excellent teachers during the past year. * * * The vastly greater inducements which more wealthy places can offer must always tend to cripple our schools in this manner. In those schools where the teaching has not been broken by resignations, the very best results are found. As I have said before in this report, most of the punishments, truancies and complaints are the result of changes in teachers. Money cannot measure the difference between good and poor teachers. No amount of supervision, no methods, however excellent, can remedy, in any degree, the defects of an incompetent teacher. The teacher is the school."

DEXTER SANBORN,

Superintendent of Schools.

Ashland, N. H., Feb. 28, 1880.
