During the past year there has been taken from the library 7,425 books. One hundred and two new volumes have been added. Thirty have been given and a large number of magazines have been given for binding. There is a great scarcity of shelf room which makes it very inconvenient for the shelves are more than full. I would suggest that a committee be appointed to look after it.

Respectfully,

REPORT OF FIRE WARDS.

To the Citizens of Ashland:

We are glad to report a year of success. No fire has gotten away, but that these articles we need added to our equipment is apparent. The Squam Lake House fire of Feb. 28, brings this plainly to our notice. We stopped this fire but had it been a cold, windy day we could not have done so without great loss, with our present equipment.

We deed, this coming year, at least three hundred feet of new hose, also six to ten chemicals with conveyances for the same. There are already being built runners for both hose carriages and arrangements are made for sleds for ladders. Some minor things are also needed.

All this costs money, but to maintain and improve the the departments efficiently we must have them. We believe we shall receive your hearty cooperation.

Respectfully,

On October 24th, the water was let out of the reservoir and same was thoroughly cleaned out down through the waste gate, and a new strainer put onto the supply pipe, It was estimated that over 300 cubic yards of decayed leaves and vegetable matter was washed out. This gives the reservoir a hard murl bottom.

REPORT OF BOARD OF EDUCATION.

ASHLAND SPECIAL SCHOOL DISTRICT.

During the year the school building has been equipped with approved heating, ventilating, and sanitary apparatus, at an expense of \$4,500.00, of which \$1,000.00 has been paid, leaving a balance of \$3,500.00 which is to be paid in installments of \$500.00 each year until paid.

A new shaking grate has been placed under the steam boiler and other minor repairs made, at an expense of about \$100.00, which have been paid for. We believe that the results from these improvements will be satisfactory.

Chapter 52 of the Session Laws of 1909 requires that "the school board of each district in their annual report shall state in detail the sums of money which will be required during the ensuing fiscal year for the purchase of text-books, scholars' supplies, flags and appurtenances, and for the payment of the tuition of the scholars of the district in high schools and academies in accordance with chapter 96 of the Laws of 1901, and for the payment of all other statutory obligations of the district."

In compliance with these requirements we submit the following:

For the payment of tuition in high schools and academies,	\$ 750 00
For text books, supplies and appurtenances,	425 00
For payment of district note and interest,	640 00

A number of changes in the teaching force of the school have taken place during the year, the present staff being as follows:
